

## PBISaz School Outcome Criteria

Schools will be evaluated for both PBIS Fidelity and PBIS Outcomes using the following nationally accepted criteria. Evaluation data will be required for continued funding.

All fidelity data must be entered into PBIS Assessments (in conjunction with your approved local coordinator) using [www.PBISapps.org](http://www.PBISapps.org). This database was created by the federally funded PBIS.org and securely operated on dedicated servers at the University of Oregon.
