

OUTCOMES – All schools

When comparing data collected from schools from the 2010/11 school-year and the 2013/14 school-year, positive movement on several indicators is observed. These are outlined below in more detail.

Federal and State Measures: By September 30, 2014, schools implementing programmatic interventions will...	Percentage of schools meeting this goal
Decrease the percentage of students who report personal harassment or bullying on school property.	58%
Improve their school safety score.	85%
Decrease the number of suspensions for violent incidents.	73%
Decrease the percentage of students that are offered, sold or given an illegal substance on campus.	96%
Decrease the percentage of students who report current (30-day) alcohol use.	92%
Increase the number of students appropriately referred for substance use intervention.	69%

INCIDENT DATA

Incident data was collected annually by schools. Listed below are the top 5 areas where the biggest changes were observed:

- 90% of schools experienced **declines in student aggression** (e.g. verbal provocation, disorderly conduct)
- 90% of schools experienced **declines in fights on campus**
- 80% of schools reported **reductions in graffiti or tagging**
- 75% of schools reported **declines in attendance policy violations** such as students being tardy, leaving school grounds without permission, and unexcused absences
- 70% of schools reported **declines in other school policy violations**, such as disruption, dress-code violation and use of inappropriate language
